Jamela Alawneh

MELAAURA

OWNER AND FOUNDER

MELAAURA

At Melaaura, we are more than just a furniture brand. We are creators of exquisite pieces that embody luxury, elegance, and sustainability. Founded by Jamela M. Alawneh, Melaaura is dedicated to transforming spaces into havens of beauty and comfort. Our commitment to exceptional craftsmanship, eco-friendly practices, and personalized design ensures that every piece we create is a true reflection of your unique style.

Redefine the outdoor space

We manufacture both indoor and outdoor furniture pieces where we prioritize our pieces to be comfortable, hard-wearing and beautiful. In this lookbook, we aim to showcase our constant improvements of the methods in our manufacturing process. Nevertheless, we believe that the one process that hasn't changed in our flow: our craftsmen.

All our pieces have been hand-woven with remarkable skills and absolute accuracy. Focusing on the tautness through creating perfect patterns, our expert craftsmen would gently stroke and stretch the rope upon the structured frames between their fingers. As the ropes flow naturally between their fingers, this creates the ornate patterns and to define the distinctive look of our furniture.

At Melaaura, our craftsmen remain as one of the stakeholders we are very much proud of. We are crafting modern designs with traditional values and constantly keeping up with the new innovations with their skills.

Every piece comes with an impeccable story

With a commitment to represent traditional techniques and new technologies, we are constantly adopting honest, sustainable practices for each piece of furniture in our production line. From the start of production to the moment our pieces are delivered to your designated location, we adhere to the highest industry standards, with respect to quality and sustainability. Each piece of our furniture recounts from the history of our wood and materials to the uncompromising production process from our craftsmanship.
